Martin Poole  
Executive Director  
Epuron Pty Ltd

21 December 2012

Dear Martin,

On behalf of the Organising Committee for the Australian Institute of Energy National Conference 2012, I would like to express my personal thanks to you for Epuron's sponsorship and participation in the conference.

As a sponsor, Epuron has made a significant contribution to the success of the conference.

In general, through your support of the conference, you have helped to improve delegates' understanding of and engagement with a range of important issues current in the energy debate.

In particular, your sponsorship and chairing of the Renewables session has contributed to awareness of the need for continued development of renewable energy technologies and appropriate policy frameworks.

I wish you and your team at Epuron continued success with your work in the energy space.

Yours sincerely,

**John Blik**

AIE 2012 Conference Chair
