

# Chalumbin Wind Farm

## Community Benefit Program Survey

Chalumbin Wind Farm is proposing a Community Benefit Program based on an industry-leading commitment of \$500,000 per year, to operate from the start of construction and for the life of the wind farm. The program will support local initiatives and projects and is to be co-designed with the community to ensure it serves local needs and priorities.

Please help inform the design of this exciting program by completing the following.

Name \_\_\_\_\_ Date \_\_\_\_\_

Residential or business address \_\_\_\_\_

Please rate the following project benefits in order of importance to you (1= most important).

- Jobs/contract work     Clean energy     Lower electricity prices  
 Investment in the local economy and services     Boost for local retail and hospitality

Please rate the following social initiatives in order of importance to you (1 = most important).

- Affordable social housing  
 Protection and enhancement of biodiversity  
 Environmental restoration projects  
 Support for local apprenticeships or traineeships  
 Grants for appropriate community projects  
 Beautifying local townships  
 Upgrading and maintenance of ageing community facilities and amenities  
 Grants to support First Nations Peoples (i.e. caring for country, wellbeing, education)  
 Sponsorship for local sports or social clubs  
 Emergency preparedness  
 Increasing community participation, especially for disadvantaged people  
 Other \_\_\_\_\_
